Re: Revitalization of Reservation 84 park

Dear Director Anderson,

On February 8, 2017, at a regularly scheduled, duly noticed monthly meeting of ANC 6C, with a quorum of six out of six commissioners and the public present, the above-mentioned item came before us.

During the meeting, the Commissioners voted unanimously to support the plan to improve the park referred to as Reservation 84. This park is at the intersection of 7th Street, and Massachusetts and Constitution Avenues in Northeast, Washington DC, and is managed by your agency.

- The plan is referred to as "Reservation 84 Park Renewal." The plan was developed with extensive public notice and engagement, and is currently supported by 13 letters from neighbors.
- The proponents of the plan are referred to as "Neighbors of Reservation 84" and have a partnership agreement with your agency. Your staff member with most contact with this group is Katie Rehwaldt. The neighbors will soon send the plan to Katie for review, advice and approval: we urge swift action.
- This plan represents the best of community activism that makes Washington DC a great place to live. For more than a decade, the neighbors maintained the park at their own cost. They now seek to implement modest improvements, for which they have the full support of ANC6C. We encourage your agency to provide this plan with your fullest support.
