ANC 6C Environment, Parks & Events Committee
Kaiser Permanente Capitol Hill Medical Office Building
700 2nd St NE, Room G2
Tuesday, March 5
7:00 PM

1. **NoMa Parks Foundation** - We will receive a status update on park projects and underpass installations.

2. **Capitol Hill Classic** - This year’s event will be held on Sunday, May 19. Race organizers will talk about the event and again seek ANC support. We will pay special attention to the planned implementation of MPD’s "Clean Routes Initiative", which bans parking along the race route. Information about the race is available on the race webpage: https://runsignup.com/Race/DC/Washington/CHC

3. **Solar United Neighbors of DC (DC SUN)** - Michaela Meehan will discuss the mission of DC SUN, which is a non-profit that brings homeowners together in a group, called a co-operative, for the purpose of achieving bulk-purchasing power for quality solar panel installation on their homes. We will focus special attention on DC SUN’s “Solar For All” initiative, which allows income-qualifying residents to receive free solar installation courtesy of a District Department of Energy and Environment (DOEE) grant administered by DC SUN. Because the “Solar For All” grant is expiring soon, DC SUN is actively looking to find qualified applicants to sign up for this program by April 2019. The qualifying income rates depend on family size and range from $65,650 for a family of one to $123,750 for a family of eight. Details on the program are available on DC SUN’s website: https://www.solarunitedneighbors.org/dc/go-solar-in-d-c/go-solar-in-a-d-c-group/solar-for-all-co-op/
