Re: 215 G St. NE/Logan School (HPA 19-271)

Dear Ms. Heath:

On May 9, 2019, at a duly noticed and regularly scheduled monthly meeting, with a quorum of five out of six commissioners and the public present, this case came before ANC 6C. The commissioners voted 5-0 to support the application.

The applicant seeks concept approval to renovate and expand the historic Logan School. Alterations would include the construction of smaller additions at the rear (south portion) of the existing historic school building, as well as a larger addition on the west edge of the lot set apart from but connected to the school.

ANC 6C supports the overall plan. In response to comments about the irregular, highly modern facades on the south additions, which would contrast sharply with the existing school, DCPS representatives stated that the current round of HPRB review is limited to the site plan, proposed building footprint, and general massing. They also promised that the project would return to the ANC and HPRB for design review at a future date. Based on that understanding, we support this preliminary concept.

Thank you for giving great weight to the views of ANC 6C.

Sincerely,

Karen Wirt  
Chair, ANC 6C
