Re: Proposed Micromobility Corral at the southwest corner of 2nd and F Streets NE

Dear Mr. Matlesky:

On September 11, 2019 at a regularly scheduled, duly noticed monthly meeting of ANC 6C, with a quorum of 6 out of 6 commissioners and the public present, the above-mentioned item came before us.

The commissioners voted unanimously, 6:0:0, to approve the proposed bicycle and scooter parking corral on the southwest corner of F Street at 2nd Street NE, between the curb and the F Street bicycle lane. We understand the location of the corral is based on trip data provided by bicycle and scooter operators, and that the corral will include 4-5 bicycle racks and a designated space for dockless scooters in an effort to declutter sidewalks.

ANC 6C notes that DDOT should review posted signage to ensure that DPW will enforce parking is reserved for bicycles and scooters and that the space is not intended to include illegal idling or loading from delivery trucks that have been observed using that space.

Thank you for giving great weight to the recommendations of ANC 6C.

On behalf of ANC 6C,

Karen Wirt  
ANC 6C chair
