Re: Support for Interim Safety Improvements to Florida Avenue and 6th Street NE

Dear Mr. Marootian:

On July 10, 2019, at a regularly scheduled, duly noticed monthly meeting of ANC 6C, with a quorum of 6 out of 6 commissioners and the public present, the above-mentioned item came before us. The commissioners voted unanimously, 6:0:0, to support the improvements proposed by DDOT to increase safety on Florida Avenue and 6th Street NE, including the addition of bike lanes on Florida and the restriction of vehicular traffic on 6th Street to one direction.

We understand that this is only one step in a longer process of ensuring safety for pedestrians, cyclists and others on Florida Avenue and 6th Street. We look forward to continuing to work with DDOT moving forward toward this goal, especially on efforts to provide adequate sidewalks on both streets.

Thank you for giving great weight to the recommendations of ANC 6C.

On behalf of ANC 6C,

Karen Wirt
ANC 6C chair
