Re: Maryland Avenue NE Streetscape Project, bike lane problem at Stanton Park

Dear Mr. Marootian:

On September 11, 2019 at a regularly scheduled, duly noticed monthly meeting of ANC 6C, with a quorum of 6 out of 6 commissioners and the public present, the above-mentioned item came before us.

The commissioners voted unanimously, 6:0:0, to send this letter concerning the bike path surrounding Stanton Park. The matter was raised by a constituent. It was noted that the plans were unclear from the beginning, but currently there is no bike lane on the north side of Stanton Park (C Street NE), while the other sides of the park include bike lanes (4th Street NE, C Street NE, south side, and 6th Street NE).

The ANC recommends that DDOT clarify the status of bike lanes around Stanton Park, noting that the need for a complete bike network around the park itself, which should include (1) a bicycle lane on C Street NE, north side, and a potential bicycle box on 4th and C Streets NE to ensure the safety for people who travel in this area by bicycle.

Thank you for giving great weight to the recommendations of ANC 6C.

cc: Mr. Aidin Sarabi, Project Manager
    Mr. Ali Shabiri, Project Manager

On behalf of ANC 6C,

Karen Wirt
ANC 6C chair
