Re: Petition requesting speed bumps on the 900 block of 7th Street NE

Dear Ms. Robinson:

On November 13, 2019, at a regularly scheduled, duly noticed, monthly meeting at which 6 out of 6 commissioners and the public were present, the above-mentioned application came before us.

Neighbors submitted a petition for speed bumps on the 900 block of 7th Street NE to slow drivers. They came before the ANC to ask for support.

The commissioners voted unanimously, 6:0:0, to support this petition. Neighbors on 7th Street state there has been an increase in vehicular traffic on this block because ride hailing and navigation apps direct drivers to use 7th Street. Moreover, the traffic signal timing at 7th and K Streets is short, resulting in southbound drivers speeding to make it through the light. The neighbors state that the type of speed bump can be determined by DDOT.

Thank you for giving great weight to the recommendations of ANC 6C.

On behalf of ANC 6C,

Karen Wirt  
ANC 6C chair
